

INNOVATING AND DIGITALISING ENGLISH CLASSES KEEPING LEARNERS @ THE CORE

Ideas, ICT tools and practices to enhance creativity and cooperation

Launching and Monitoring a Project

implement brainstorming on and design of
digitally-enhanced projects

plan a project working both collaboratively and
creatively (i.e., topic selection and groupmaking)

1

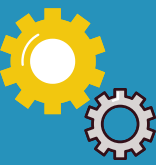

implement peer-to-peer feedback

Presentation and authoring tools

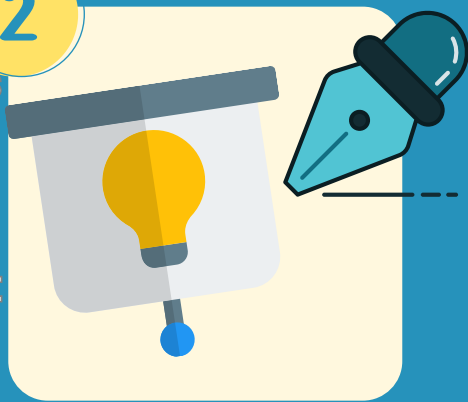

design engaging and inclusive presentations
while working collaboratively

compare presentation tools to select the most
goal appropriate

2

The collaborative power of digitally- enhanced storytelling

design digitally-enhanced creative
storytelling based on cooperation

formulate ideas and possible use of creative
writing in your classroom

3

Making videos and creating digital books

create videos quickly via easy-to-use tools

select and compare tools to create booklets
and deliverables

4

Wrapping up and wise use of AI

use AI to speed up material creation for
teachers

collect and share ideas and resources

5
