

## EDU Regio Digital Co-creation Lab

*Learning Activity C – Programme*

*March 2021*

### Background of the project

EDURegio implements and develops **Digital Education Action Plan** (DEAP) actions at regional level to face common challenges and assist in establishing a solid European education policy. The network stems from the need to foster digital competences and digital citizenship at the regional level to share good practice among regional policy-makers.

Our focus is to **empower schools, students and teachers** in using **digital technologies**, encouraging them to be proactive and innovative, and to implement the development of main EU Commission priorities related to digital citizenship and skills building, as well as its deployment on actions addressed to K-12 school education from bottom-up approaches.

The EDU Regio project is coordinated by the Generalitat de Catalunya (Spain), together with European Schoolnet (Belgium). The project also involves four partners from four European regions: Junta Castilla y León (Spain), Provincia Autonoma di Trento (Italy), Göteborgsregionens kommunalförbund (Sweden), and the Comunidade Intermunicipal da Região de Coimbra (CIMRC) (Portugal).

For more information, please visit the [project website](#).

### About the course

The **EDU Regio Digital Co-creation Lab** represents an opportunity for **regional delegations**, composed by teachers and local authorities' officials, **to exchange best practices** in the use of digital tools for education, learn from each other, **co-create** and **feedback** on the EDU Regio **School & Classroom Kit**.

This activity will also provide participants with a chance to explore different **pedagogical approaches and technologies**, and to share with colleagues their experiences. These would partly be based on the experience acquired during the **closure of schools** over the past 12 months.

The course will take place over four days in March, two of which are open to the public. We invite you to join us in these two days.

In order to join, please fill in [this short](#) from before **14 March**.

## Behind the course

This course will be facilitated and presented by Generalitat de Catalunya, Project Coordinator, and the project partners: Junta de Castilla y León, Provincia Autónoma de Trento, Göteborgsregionens kommunalförbund, Comunidade Intermunicipal da Região de Coimbra, and European Schoonet.

## Successful participation

To be able to **participate successfully** in the programme, and to be able to contribute to the sessions, it is important that you check the following criteria:

- A good understanding of English, and the capacity to interact informally in English.
- Tablet, laptop or smartphone with working audio and microphone. Camera is optional;
- Stable internet connection.

## Programme

Day 1 – Monday, 15 March

### Introduction

Time	Session
15:00 – 15:10	Check-in and welcome
