

LIKE A REAL STREET ARTIST

PRACTICAL ACTIVITY

Assignment:

1. Create a crew;
2. Make up a character;
3. Deform body and face (you don't need to respect the proportions);
4. Adapt the position of the body to the space to decorate (choose one of this buildings below without the picture just realized or find out a new one surfing on the Internet. It would also be nice if the building is one that you know in your city or, even better, **a wall we have seen during the field trip**);
5. Think about an object or activity (the character must do something with an object or more than one);
6. Tell a story (the character can think, feel or arouse emotions, a message or an intention);
7. Draw a background (realistic or abstract);
8. Adapt the draw to the architecture or the wall (draw the setting - the picture on the building).
