

STATE OF MATTER

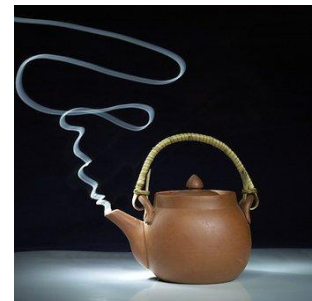

TASK 1. Match the words with their definitions.

STATE OF MATTER	Liquid, solid, gas are examples of state of matter.
ORDER/DISORDER	Regual allocation/irregular.
FIX, FIXED	Constant.
VOLUME	The space that one object fills.
SHAPE	The appearance of an object, the figure of an object.
PACK, PACKED	Limited in a small volume
TO FLOW	To change shape, adapting to the container.
TO BE SQUASHED	To be pushed into a small space

(all definitions have been adapted from the original ones on Cambridge Dictionary - dictionary.cambridge.org)

TASK 2.

Work in group: match words with pictures and then put them in the correct column of the table communicating in English with your mates.

(all images have been adapted from the original ones, released by pixabay.com under CC0 license)

Ice cube	Water	Chocolate	Vinegar
Helium	Wood	Oxygen	Honey
Iron	Fire	Steam	Orange juice

Solids	Liquids	Gases

TASK 3.

Work in peers: fill the chart.

Hint: you can use words like the one you heard in the video or that you have in the vocabulary sheet. Please look at the scaffolding only after you have attempted the task.

	Solid	Liquid	Gas
Volume			
Shape			
Intermolecular forces			
Does it flow?			
Intermolecular order			

Scaffolding

Use words like: Fixed/Not fixed -- Strong/weak/none -- High/low/none
