

## SELF ASSESSMENT GRID

Name of the Unit: **FLUID STATIC**

Student Name: \_\_\_\_\_

Please look at the sentences below and select one of the 3 answers.

		<i>Easily</i>	<i>With some difficulty</i>	<i>With great difficulty</i>
1	I can explain fluids characteristics			
2	I can explain the hydrostatic pressure concept.			
3	I can explain density of a substance.			
4	I can state the equation of pressure in solids and liquids and its units			
5	I can explain buoyancy and Archimedes principle			
6	I can interpret the definition and the main characteristics of atmospheric pressure.			
7	I can solve examples and problems on density , specific gravity, pressure in solids and liquids, buoyancy and Archimedes principle.			
8	I can present give some examples about how to apply of application of Archimedes principle.			
9	I can use with confidence the vocabulary about fluid static.
