

## Video on the Sustainable Development Goals

	WHERE	WHAT	WHY
<b>INVENTORS</b>	Turkey		
	India		
<b>INNOVATORS</b>	the USA		
	Nigeria		
<b>CAMPAIGNERS</b>	Bali		
	Jordan		

	<b>WHERE</b>	<b>WHAT</b>	<b>WHY</b>
<b>INVENTORS</b>	Turkey	This girl invented a new type of organic plastic, using banana skins. You can easily make it in your own kitchen.	She wanted to lower pollution, which is caused by the factories that produce plastic from fossil fuels.
	India	This boy invented a new system to flush toilets. It saves 50% of water.	India is one of the most populated countries in the world, and a lot of water is wasted.
<b>INNOVATORS</b>	the USA		
	Nigeria		
<b>CAMPAIGNERS</b>	Bali		
	Jordan

<b>INVENTORS</b>	Turkey	This girl invented a new type of organic plastic, using banana skins. You can easily make it in your own kitchen.	She wanted to lower pollution, which is caused by the factories that produce plastic from fossil fuels.
	India	This boy invented a new system to flush toilets. It saves 50% of water.	India is one of the most populated countries in the world, and a lot of water is wasted.
<b>INNOVATORS</b>	the USA	This group of teens opened vegetables gardens in their neighbourhood. They started growing and selling their produce.	They lived in a dangerous and run-down neighbourhood. They wanted to improve their community so that everyone could take care of it.
	Nigeria	These girls created a phone app to report abandoned waste, so that it can be collected and disposed of.	They noticed that a lot of harmful, hazardous waste was thrown away illegally.

<b>INVENTORS</b>	Turkey	This girl invented a new type of organic plastic, using banana skins. You can easily make it in your own kitchen.	She wanted to lower pollution, which is caused by the factories that produce plastic from fossil fuels.
	India	This boy invented a new system to flush toilets. It saves 50% of water.	India is one of the most populated countries in the world, and a lot of water is wasted.
<b>INNOVATORS</b>	the USA	This group of teens opened vegetables gardens in their neighbourhood. They started growing and selling their produce.	They lived in a dangerous and run-down neighbourhood. They wanted to improve their community so that everyone could take care of it.
	Nigeria	These girls created a phone app to report abandoned waste, so that it can be collected and disposed of.	They noticed that a lot of harmful, hazardous waste was thrown away illegally.
<b>CAMPAIGNERS</b>	Bali	They noticed that too many plastic bags were polluting and ruining the environment and threatening sealife. These two sisters started a campaign to ban plastic bags from their island.	They noticed that too many plastic bags were polluting and ruining the environment and threatening sealife. These two sisters started a campaign to ban plastic bags from their island.
	Jordan	This girl campaigned to convince parents to let their daughters go to school.	In this refugee camp too many girls were dropping out of school to get married, although they were very young.
