

	<h1>CLIL</h1>	Surname <hr/>
	<i>Teacher Corrente Maria Luisa</i>	Name <hr/>

Create a folder and name it as HTML - (today's date); copy the following HTML page and save it in the folder as index.html:

```

<!DOCTYPE html>
<html>
  <head>
    <title>First example</title>
    <meta name="author" content="Luigi">
  </head>
  <body>
    <h1>My first web page</h1>
    <p>HTML is the language used to create websites.
    <br>It uses tags to display elements.
    <br>
    <a href="https://www.w3schools.com/html/default.asp">Click here</a>
    if you need more information.</p>
  </body>
</html>

```
