Analyse the following HTML document and indicate the main tags that contain the other ones:

```html
<!DOCTYPE html>
<html>
    <head>
        <title>First example</title>
        <meta name="author" content="Luigi">
    </head>
    <body>
        <h1>My first web page</h1>
        <p>HTML is the language used to create websites.
        <br>It uses tags to display elements.
        <br><img src="images/logo.png">
        <a href="https://www.w3schools.com/html/default.asp">Click here</a>
        if you need more information.</p>
    </body>
</html>
```
