

# EXPERIMENT 1

MEMBERS OF THE GROUP: \_\_\_\_\_

## MATERIALS

 <p>TOPSOIL</p>	 <p>TOOTHPICK</p>	 <p>TINFOIL</p>
 <p>ICE CREAM STICKS</p>	 <p>GREEN CREEP PAPER</p>	 <p>GLASS WITH WATER</p>

## PROCEDURE

- 1) Glue the green crepe paper onto ice cream sticks to create tree crowns.
- 2) Lay a piece of tinfoil onto the table.
- 3) Put the topsoil on the tinfoil to create a hill.
- 4) Place some of your trees on this hill.
- 5) Pour 1/2 of the water onto the trees.

GLOSSARY	
TREE CROWN =	
HILL =	
POUR =	

## WHAT HAPPENED?

## PROCEDURE

- 6) Now take your trees out of the soil.
- 7) Pour the water that is left onto your hill.
- 8) Observe what happens now.

## WHAT HAPPENED?
